# Soul Voice® Teachers' Workshops 2025

**The Authorised/Accredited Teachers are skilful and dynamic professional individuals, who support the Soul Voice® vision, based on Karina's teaching.**

**They each offer their individual flavour & personality into their own compelling teaching.**

The Authorised Teachers are certified Soul Voice® Practitioners, who have either completed the 5 modules of TTP. The Teacher Training Program, over a period of 3 years or are in the training right now. Authorised teachers are in the process of completing documentation of their workshops to become accredited.

Accredited Teachers have successfully completed documentation of their 2 days Soul Voice® workshop, however others have reached full accreditation which includes the 5 days Advanced Sound Initiation.

Requirements to become accredited are: Documenting x2 or more of each Introductory Workshop (2 & 5 days) including completing personalised powerwork, as part of Karina's coaching. It is also required that they have assisted in at least one of the 5 levels of PCP.

To keep practicing as an Authorised/Accredited Soul Voice® Teacher an annual membership and update is required.

When first hearing Karina's shamanic tones back in 2005, I knew I had found my calling! Soul Voice® is the real deal. Our voice is the most effective instrument for self-healing because, when trained, it allows us to find & match the exact sound frequency needed for us as individuals in any given moment. It is organic, flexible & always evolving as we are. We use our voice to get to the source of our stress, disease, disharmony, etc and from there, release it! We learn to fine tune our voice & recreate ourselves as pure vessels for sound healing. I have participated in, organised & assisted Karina at numerous Soul Voice® workshops and trained in many other modalities over the last 2 decades. I have over 20 years' experience working with clients & groups to facilitate healing & transformation. I invite you to join me at a Soul Voice® workshop to reconnect with & strengthen your inner wisdom, voice medicine & healing power with groundedness & authenticity. You will feel supported & safe as you explore the power of your voice and come to BE from a Soul level. LIVE the magical being that you truly are with Soul Voice®!

Using the incredible transformational power of our own voice, we make the difference in our world, the shift humanity needs now more than ever. We can change our old paradigms and raise global consciousness. Each individual carries the key for the realization of that vision in their throat. The impact of our modern ways have become unsustainable. For me, it is an insistent call to bring radical transformation into the world, on an individual basis because each of us is carrying a light that needs to be expressed and manifested. I love the image of the wave that has forgotten that it is the ocean: we are so identified with our thoughts, conditionings and habits that we are not aware of the vastness of our consciousness; we are confined to the limits of our mind, while, in reality, we are a source of infinite possibilities that we can create at any time. Our voice is the blueprint of who we really are; it gives us the access to the infinite sky within. I will guide you to discover the incredible power of your own voice; it is the beginning of the amazing journey home to yourself.

Through our Voice we can free everything that blocks us, not allowing us to feel good and be free. Through this extraordinary method, I can help you regain contact with your authentic voice and teach you to release it, so that you can expand and make your life easier and more exciting. During the Soul Voice® seminars, you will feel how powerful your authentic Voice is and what an extraordinary healing tool it can be for your health and your life. You will listen to your emotions, express them & free them with your voice. Even those repressed, those that are not allowed to be heard. Through this process you let go of Tension, Stress, Fear, Emotional Blocks and freely express yourself. The VOICE is a wonderful and very powerful tool, which allows you to be completely FREE. If you allow yourself to make a powerful and adventurous journey within the true essence of your VOICE, you explore all its potential and colours, bringing within you a sense of peace & joy, combined with a profound growth & personal and spiritual transformation. I hold Soul Voice® workshops, group personal growth seminars, individual sessions & meditations aimed at wellbeing, development & full realization of the person.

I feel an immense pleasure when diving in my students sounds released in the space around. Every sound is different and at the same time every one of them speaks the same language bringing to everyone consciousness, wisdom, strength and openings for new possibilities. My role of launch and testimony of the conscious evolutionary movements expressed by the whole group but manifested in everyone in its own specific, personal way, fill me with pride. I am proud of this because I know that it is exactly this, that makes every life a special life, fully lived in its inner sense. When we give back to the voice its own power of leadership and as a tool of manifestation of being, we agree to occupy the place we have in the world by birthright, so honouring Life. I have facilitated 2 day and 5 day Soul Voice® workshops all over Italy for many years. I regularly organize courses in Sicily, Milan and in Florence. With care, devote attention and respect, I contain, support and accompany the energies moving in the group so that they can bring to maturation their fruits enlightening new lives happier.

Our voice is a continuous emanation of who we are and contains all the parts that constitute our being. It allows us to go back to our centre and to our oneness. I have been working for over thirty years as a body therapist with different energy-based healing methods and now I am using my voice. Through Soul Voice® workshops I will be happy to take you along this wonderful path of further knowledge of yourself and of your whole expression. For me too this is a continuous and extraordinary discovery as well as a healing path. Our voice can connect with all the parts of our being (including those that we do not know!) Our voice is also an access KEY to our greater being, to our soul! Using your voice is EASY! Voice is a physical instrument, but like a magic thread that reconnects and links us with those parts of us that are not so "physical"; our energy body, our emotional and spiritual dimensions. We go back to being in the right place at the right moment, in Divine Timing. It is a path I am following for my freedom, my joy and realization. I hope it will be the same for you!

When we are really able to listen to ourselves & give space to our inner voice, everything changes. We can see/feel/touch/smell things for the first time & not judge or compare them other things without Love. When we give sound without fear to all the Truths waiting to be expressed through our voice, we give permission to our authentic inner Divine Being to manifest itself on Earth, in our lives and we became positively contagious! When we express with confidence all our Inner Voice has to say, we can remember Who/What we really are. Nothing will be as before... The Soul Voice® Method is not about the artistic/artificial use of the voice. I'll simply guide you to LISTEN at yourself and to simply and gently allow your mystical, magical and multidimensional voice to come out of you. Could it be so simple? Yes. You have only to trust in your own uniqueness and in your own sacred vulnerability. With the Soul Voice® method, you will become aware of all this human-divine possibility to dive deeper in the real essence of yourself... you don't need instruments, computer devices or microphones. In all the multidimensional frequencies of your voice, you have already, all that you need.

When there is something that changes your life, bringing you to levels of wellbeing never experienced before, you naturally look forward to letting everybody know about it. With the same enthusiasm I wish to let you experience this life changing method with me. It is about diving into emotions, which you are unaware most of the time, and giving them a voice, your voice, finally. It is about discovering the wisdom of the sounds of the human voice which can guide you through the darkest night and let you always find the way home, because when you sound your truest emotions you are always home within yourself. It is about allowing yourself to give voice not only to your joy, but also to your natural ecstasy because you deserve to be yourself in all your utmost expressions. I can help you discover the potentials of your voice unveiling your inner wisdom and I do so with passion, joyousness and gratitude because it is for me a privilege when you allow me to take you by hand, like friends who share the same path for a while.

When I open my mouth and sounds come out, I feel free! The Soul Voice® method taught me to be who I really am. I learned to listen to my voice, my inner wisdom and learned about my inner authority. It changed my life and transformed it in so many positives ways I could not imagine before! I would love to invite you to start living your life fully with your magical voice and reconnect with all you possibilities! Our body is like a library that stores every experience. Positive memories give us strength but negative costs us energy. Our Voice can travel through our body as a highly advanced system and release and transform every thing that is blocked. It is through our voice that we can feel fully alive again. With the healing possibilities of our voice we can not only heal ourselves but also our surroundings, all the elements. After a long journey of working like a psychologist, therapist, mediator, I came in contact with the Soul Voice® method and everything fell into place. With my voice I go in a split second, without any words, direct to the core! I invite you all to visit one of the beautiful workshops.

Your voice is the instrument for (self)liberation, healing and connection with your Soul's essence. Explore the unexplored within yourself that longs to be heard and seen. The Soul Voice® method gave me the structure and depth that I love to invite you into. To use your voice in this way, helps you to come out of your head, into your body. From thinking to feeling and then reconnecting to your true wisdom. To live life from your heart. To find confidence and to love yourself for whom you truly are – creative and free. My voice and breath are my anchor, my medicine and my connection to Source. I discovered that liberating my voice and breath gave me personal freedom. By connecting to my voice, I learned to listen deeply, and to get to know myself. My voice has become my medicine for personal development – from suppression to creativity and authenticity. So now I invite you to come on this journey with me. I will create a safe space where you can dive deep and liberate your voice, free your talents, dreams and passion to transform what is holding you back! I am so happy and delighted to facilitate the Soul Voice® workshops!

We all have an innate longing to express who we truly are. So let your feelings, emotions and longings be heard. Dare to listen to your inner voice and your body wisdom. Every experience in our life is captured in the cellular memory of our body. Your own voice is a wonderful tool for transformation of patterns you don't need anymore, to reprogram you cellular memory, to reveal forgotten talents and experience embodiment of unique beingness. Let yourself be guided and transformed by healing sound frequencies and self expression on your path of self-discovery, coming home within, personal liberation and manifestation of a meaningful life. I warmly invite you to embark on a journey of self-discovery and self-love. For aliveness and joy in your heart, to live from within and all of who you are. Follow the call in your heart, believe in your dreams and let them come true in unpredictable ways. Soul Voice® workshops are an everlasting adventure and a surprisingly simple and liberating way to get to know yourself better. I look forward to hear YOU.
