"Karina is refreshingly open and honest with her voice. She combines the intricacies and details of dissonance and then weaves the harmonicsto

integrate the work being done. I am so grateful to be able to support and sonically agree with one such as Karina on this path of Sound as teacher, as sound as an evolutionary tool"

"This voice and sound healing music CD combines the magical frequencies of Karina Schelde's shamanic voice blended with Lucyan's mysterious and entrancing instrumental compositions using the sitar, sax, flute, tambura, mandola and percussion.

There are eight different tracks on the CD, with healing sounds varying from playful to subtle, from roaring to gentle, expressing many different moods. Melissa McCormack, Australia

"Returning from a place of stillness from these deep meditations I am looking with different eyes in the outer world. I am able to observe my reality from a new and higher perspective and to make new decisions. Stress and struggles have lost their impact and I am much more at ease and peace with me"

Marianne Comtesse, Switzerland

"The frequencies of Karina's voice are calling me to dive deeper into the listening of my body – step by step I commit to the layers of my physical being – to fall deeply in love with who I am in that present moment. Through the experience of a deep physical sensation of my body I start to accept – I enter a space where I start to fully trust to surrender – more and more – so that a deep relaxation arises and I become a new being by letting go and just BE."

A wonderful CD to deeply commit and surrender my body and mind simultaneously"

Heartfelt gratefulness
